

March 17, 2020

Barrington Residents,

The COVID-19 Virus has become a serious health emergency. At this time, there are no confirmed cases in Yates County. If we do, unfortunately experience any cases it has given residents time to prepare.

The Town of Barrington is taking every measure available to keep our residents safe when they are visiting our buildings.

Residents needing to conduct business at the Town Hall or Town Highway Barn should contact the specific department first to determine if they can conduct their business over the phone or by mail instead of in person.

We will be following the regulations put in place by New York State. If there are any cancellations they will be posted on the Town's website.

Town Supervisor,

Steven Perry
