CONCLUSIONS OF LAW

Based on the above findings of fact the Board concludes that:

Appeal/Interpretation – The order of the zoning administrator (is/is not) in excess of his/her authority because (or)

The zoning administrator's interpretation of Section _____ of the zoning code (is/is not) a correct interpretation because

Variance – The variance (does/does not) meet all three of the following tests:

A. The hardship (is/is not) due to physical limitations of the property rather than the circumstances of the appellant because

B. The variance (will/will not) harm the public interest because

C. Unnecessary hardship

- For an area variance, unnecessary hardship exists when compliance would unreasonably prevent the owner from using the property for a permitted purpose (leaving the property owner without any use that is permitted for the property) or would render conformity with such restrictions unnecessarily burdensome. The board of adjustment must consider the purpose of the zoning restriction, the zoning restriction's effect on the property, and the short-term, long-term and cumulative effects of a variance on the neighborhood, the community and on the public interests. This standard reflects the new *Ziervogel* and *Waushara County* decisions.
- For a use variance, unnecessary hardship exists only if there is no reasonable use of the property without the variance.

D. Unnecessary hardship (is/is not) present because

Conditional Use – The application for a conditional use permit (does/does not) qualify under the criteria of Section _____ of the ordinance because
